

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	31 January 2025
Team ID	
Project Name	DHARSHANEASE
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration using Name, Email and Password User Login using Email and Password
FR-2	User Authentication	JWT Authentication Forgot Password Reset Password
FR-3	Temple Management	View All Temples View Temple Details Search Temples
FR-4	Darshan Slot Booking	View Available Slots Book Darshan Slot Cancel Booking View Booking History
FR-5	Donation Management	Make Donation View Donation Details
FR-6	User Profile	View Profile Update Profile Information
FR-7	Admin Dashboard	View Dashboard Statistics
FR-8	Temple Administration	Add Temple Edit Temple Delete Temple Upload Temple Images
FR-9	Slot Administration	Add Darshan Slot Edit Slot Delete Slot

FR-10	Booking Administration	View All Bookings View Temple-wise Bookings
FR-11	Donation Administration	View All Donations Monitor Donation Records

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	User-friendly interface with simple navigation and responsive design.
NFR-2	Security	JWT authentication, encrypted passwords using bcrypt, protected routes, and role-based access control
NFR-3	Reliability	Ensures accurate storage and retrieval of temple, booking, donation, and user information in MongoDB.
NFR-4	Performance	Fast API responses using Express.js and efficient MongoDB queries for bookings and temple management.
NFR-5	Availability	The application is available whenever the frontend, backend, and MongoDB server are running.
NFR-6	Scalability	Supports adding more temples, users, slots, bookings, and donations without major architectural changes.
NFR-7	Maintainability	Modular MERN architecture with separate controllers, routes, models, services, and React components for easy maintenance.
NFR-8	Compatibility	Compatible with modern web browsers such as Google Chrome, Microsoft Edge, and Mozilla Firefox.
